# Breezeway Barns

FCP Barns are:

Kick-Proof

Fire-Resistant

Chew-Proof

Gable Barn with Eave & Gable Porch

Gable Barn

FCP Breezeway Barns are customized to fit all your equine needs. With countless exterior and interior wall and color choices, 12' or 16' breezeway aisles, 3/12 to 6/12 roof pitch and so much more, FCP is here to help you design the perfect barn that reflects your individual style.

Raised Center Aisle Barn

## RAISED CENTER AISLE

The Raised Center Aisle features attractive architectural lines making it the most popular design. With its aesthetically pleasing roof design, the RCA allows maximum lighting and ventilation for your horses. Sliding windows with screens are available for added ventilation control.

## GABLE

The Gable design features a traditional and functional yet cost effective roofline. It is a great choice for both warm and cold weather climates.

# Shedrow Barns

Did you know?

FCP offers custom designs.

You dream it, we build it!

Shedrow barns provide the traditional gabled roofline with a protective overhang. These barns are an excellent choice for areas with space limitations or in warmer weather conditions. The overhang comes in a variety of sizes and is ideal for optimizing your work area.

Various shedrow barn configurations (such as "U" or "L" shaped) are available to meet your design requirements and specifications.

## Our Promise:

All FCP barns and buildings are Made in America.

MADE IN THE USA

# Buildings

FCP provides structures that can be designed and engineered to meet your diverse needs. You can count on FCP's "customizable" innovations using the many options available in width, length, height and style for an attractive steel structure with durable form and function. Our complete line of buildings can be used as garages, storage buildings, RV or boat storage, workshops and more. All our buildings are designed and constructed to meet or surpass all local building codes and requirements.

Multipurpose Shelter

Longeing Pen

# Roof Structures

FCP Roof Structures can be built to any size and are manufactured with only premium quality materials and superior workmanship which will last a lifetime. All our roofs are designed to meet and surpass all local building codes and requirements. You can customize your roof structure by adding 26 gauge steel siding or laminated wall components to create a structure specific to your needs.

Loafing Shed

Multipurpose 3-sided Storage

Round Pen Cover

Round Pen with Kick Panel

# Working Pens

FCP's Round Pens, Longeing Pens and Breaking Pens are ideal for training or exercising your horse in a controlled area and can be a powerful tool for developing or maintaining a relationship with your horse. FCP offers the broadest selection of pens in the industry and uses the same premium galvanized materials and certified workmanship as our barns and buildings. We can design the perfect round pen, in any diameter you desire, that will be a reflection of your individual style and need. FCP can also offer you protection from harsh weather conditions by covering your round pen with our Round Roof Cover. All our durable solid wall pens come with our FCP lifetime kick-thru warranty.
